Election/Restrictions

Applicant's election without traverse of claims 1-10 and 28-39 in the reply filed on 5/3/2007 is acknowledged.

Allowable Subject Matter

Claims 1-10 and 28-30 and 39 are allowed.

The following is an examiner's statement of reasons for allowance: the subject matter of the claimed invention is related to speech recognition in telephony application. The claims are allowed because the prior arts of record do not teach a telephony application server coupled with speech recognition server performing the steps including generating custom grammar, sending the custom grammar together with the voice command to the speech recognition server as recited in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 31-38 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which
